

Welcome to Arapahoe Construction, Inc. ACI is a General Contracting firm who specializes in custom building, remodeling, and renovations with a green approach. From concept to completion, we stand out from the other contractors in Summit County, enabling all of our clients to experience the ACI Advantage. Please explore our site and contact us regarding how we can assist you with your building or remodeling needs.

We work closely with our clients to provide the best service possible and to ensure that their building and remodeling vision becomes a reality. We believe in the implementation as much as we believe in the consultation and high level design.

We are doers who have the ability to implement solutions with a practical eye.

ACI can provide a seamless transition from project conception all the way through to completion.

This approach is most obvious with our Energy Audit to Energy Retrofit projects. As Energy Auditors we cannot only demonstrate energy deficiencies in the home, but we can also implement the energy retrofit to improve upon them.

We aim to provide a professional service in a timely manner and can work closely with the architects, engineers and interior designs of your choice or we can recommend our local favorites. As a company providing building and renovation services in a resort community, we are used to working with second homeowners who cannot always be on site and are sensitive to the special communication and coordination skills necessary to ensure a smooth and seamless project.

Our Services Include:

- Building New Homes
- Remodeling and Additions to Existing Homes
- Complete Kitchen and Bathroom Remodels
- Home Energy Audits
- Home Energy Retrofit Remodels
- Realtor Services
